Damon Jackson

Dallas TX • (469) 617-1840 • damonhjackson2@gmail.com

Professional Summary

The technology field became my passion through my curiosity for learning about how things worked and trying to build them myself. Programming appealed to my passion by challenging me and teaching me how to analyze and solve complex problems. My experience leading an engineering team, developing personal projects, and expanding my coding knowledge has helped me to become a better leader, problem- solver, and programmer.
